A tradition of innovative products

We proudly present our latest catalogue at the start of a new era for Curran Foods — what with the third generation now at the helm to continue our tradition of premium, progressive products and the highest standards of customer service.

Through ongoing investment, responsiveness to consumer tastes, and two-way customer loyalty, our family company has grown from humble beginnings into one of the largest independent food wholesalers to the retail sector and hotel, restaurant and catering operators in the South of Ireland.

The latest expansion of our modern Waterford plant has added a 10,000sq-ft warehouse with increased loading facilities specifically for our ever-evolving range of ambient products.

Product innovation, allied to personal customer service, value and choice, remain central to the complete foodservice solutions we offer. We deal directly with the finest food

producers in Ireland, and indeed across Europe, to deliver consistent quality that's on-trend with consumer preferences.

Environmentally conscious, we continually invest in green initiatives. Our new facility is fitted with 100% LED lighting, and this is being introduced to all existing warehouses. In aiming to reduce our carbon footprint even further, we are upgrading our refrigeration plant with the latest energy-efficient technology.

Thanking our customers for your loyal support over the years, not least amid the challenges of 2020-21, please be assured our experienced, committed team are available, as always, to help serve your needs.
